

## Amyloid beta 40/42 and pTau181 in both CSF and Plasma

Format	Title	Details
Poster	CSF-plasma biomarker profiles from BioFINDER MCI patients using the same technology	Tuesday, August 2 P3-141

## ADx Neurofilament assay in plasma

Format	Title	Details
Poster	A novel neurofilament light chain Simoa assay that can quantify age-dependent changes in control plasma samples over small time periods.	Sunday, July 31 P1-185

## ADx contributions to research

Format	Title	Details
Virtual Oral Session	Value of <b>plasma biomarkers</b> to predict memory change in cognitively unimpaired individuals	Sunday, July 31 9:25 – 9:35 a.m.
Virtual Oral session	<b>Plasma pTau181/Aβ42</b> identifies cognitive change earlier than CSF pTau181/Ab42	Sunday, July 31 9:35 – 9:45 a.m.
Hybrid Oral Session	[18F]RO-948 Tau PET Retention and Correlation with Fluid <b>Tau Biomarkers</b> in the Early AD Continuum	Sunday, July 31 11:45 – 11:55 a.m. Ballroom 20A
Poster	Point of care measurement of <b>blood tau</b> in Alzheimer's dementia	Sunday, July 31 Virtual platform
Poster	Voxel-wise Staging of Tau Pathology using [18F]RO-948 PET in the Early AD Continuum	Sunday, July 31 Exhibit Hall – DEF; P1-279
Poster	<b>Plasma biomarkers</b> associations with cognitive change in preclinical Alzheimer's disease	Sunday, July 31 P1-428
Poster	The effects of age and sex on <b>plasma p-tau181</b> concentrations in Alzheimer's Disease	Monday, August 1 P2-169
Hybrid Oral Session	A head-to-head comparison of <b>plasma phosphorylated tau assays</b> in the real-world memory clinic	Tuesday, August 2 9:35 – 9:45 a.m. Ballroom 6A
Poster	Diagnostic value of <b>serum versus plasma phospho-tau</b> for Alzheimer's disease	Tuesday, August 2 P3-169
Poster	Predictive value of a <b>plasma p-tau181-specific assay</b> for amyloid accumulation in asymptomatic Alzheimer's Disease	Wednesday, August 3 P4-154
